# * Javascript Engine -

- Computers do not understand javascript
- A javascript engine takes javascript, and converts it into some-
  thing it does understand - machine code.

* Machine code -

Javascript
c++
Assemby lang
Machine code

- Node.js written in c++
- At the heart of Node.js is the v8 engine
- The v8 engine converts our js into machine code.

* Node.js with v8

javascript
